SOFTWARE ENGINEERING

STUDENT EXPERIENCE

ProveGuard

January 23, 2023 -

April 23, 2023

In this project I worked using tools such as HTML, CSS, JavaScript, in addition non-relational bases such as MongoDB were used, and the implementation of NODE.JS, here an asset control system or (SICA) as it was called for the project was created. , for a company called ProveGuard.

PETSINC

September 11, 2023 -

December 16, 2023

For this project, we used .NET and SQL Server, deploying to Azure. We created a website for a fictitious company called PETSINC, a pet hotel. Users could register, register their pets, select stay dates, and choose from various packages and services.
